SAVVY
TECHNICAL SOLUTIONS

Capabilities Statement

Who We Are

Savvy Technical Solutions is a professional services company that assists organizations as they implement solutions using Microsoft technologies, including Microsoft 365, Azure and the Power Platform. Whether it's migrating content to the Microsoft cloud, configuring a Microsoft 365 environment to optimize security and usability, conducting technical training, or providing expert counsel to an IT team, our practical solutions are tailored expressly for our clients' specific needs. In all we do, we are committed to the highest standard coupled with friendly customer service.

What Sets Us Apart

Expertise

President and Chief Architect, Becky Bertram, has been granted the prestigious Microsoft MVP award every year since 2009. Additionally, she has been a Microsoft Certified Trainer since 2011. Each of our professionals brings a singular expertise to their specialty.

Customized Approach

Each of our solutions is tailored specifically for each client's needs, such as implementing Teams, rolling out a new SharePoint intranet, creating customized training for end users, developers or IT professionals, or crafting solutions using the Power Platform.

Cutting Edge

As a Microsoft Solutions Partner for Modern Work, we help organizations learn about and implement the latest technology available on the Microsoft platform, so IT teams feel confident deploying and supporting new technology.
